BUILT TO SUIT YOU

ENHANCE THE BEAUTY OF YOUR HOME

Fersina Windows is celebrating over 25 successful years of serving customers. Since its inception in Peterborough in 1987, Fersina Windows continues to remain at the leading edge of design, innovation and customer service.

Fersina Windows

FERSINA WINDOWS DESIGN AND MANUFACTURING

Fersina custom-manufactures a complete line of ENERGY STAR qualified windows for new construction and replacement customers. Fersina Windows are manufactured using the highest quality chemical ingredients, that will give you a vinyl window that will maintain it's new appearance, under the most extreme environmental conditions. Our vinyl stands up to the effects of UV rays and air pollution cleans off easily. Specialists in architectural windows and windows for historical homes, Fersina commits to working with customers to achieve the highest level of satisfaction possible.

Fersina Windows produces a complete line of superior quality vinyl windows. No "good, better, best" – Fersina manufactures only premium quality products at an affordable price for your new home or renovation.

Choose from warm extruded window colours, custom exterior colours and numerous glazing and frame options to create the desired effect.

Fersina Windows offers products for sale to contractors, consumers and dealers. Our experienced installation department can professionally install your new windows and doors to give you the peace of mind that comes with a job done right the first time. When you buy directly from Fersina Windows you are dealing directly with the manufacturer.

HERITAGE HOMES

FERSINA WINDOWS SPECIALIZES IN
REPLACEMENT WINDOWS FOR OLDER
HOMES

Maintain the architectural integrity of your home with windows designed to replicate the original appearance. Fersina Windows introduces our "Heritage Home" line of custom vinyl windows, specifically designed to suit older homes. Fersina Windows has extensive experience with the demands placed upon owners of historically designated buildings. New energy-efficient windows with Low E/Argon glass and warm edge spacers can be installed within your existing openings. Original trim will be maintained. A wide variety of internal and external grills is available to replicate the appearance of your original windows. Enjoy the comfort and ease of use that Fersina Windows provide for your older home.

FAVOURITES FOR CONTEMPORARY HOME DESIGN

Casement windows bring the feel of the outdoors into your home.

Fersina Casement and Awning windows offer maximum sealing against air, water and sound penetration by utilizing triple weatherstripping. The screens are very sturdy and easily removed from inside. The operating sash opens 90° with an offset hinge for maximum ventilation and easy cleaning from the interior of your home.

CASEMENT & AWNING

CASEMENT AND AWNING WINDOWS FEATURE:

- Thermally welded corners in frame and sash for superior strength and air tightness
- Heavy duty extrusions with 2 mm exterior walls
- Multi-chamber design for rigidity, insulation, and sound absorption
- Easy to remove, flush mounted, screen
- Low E Argon glass with warm edge spacer
- Folding/nesting operating handle
- Multipoint casement locking mechanism for convenience
- Top and bottom mounted hinges
- Offset hinge for easy cleaning from inside
- Numerous glazing options available
- Internal grills available in Georgian, rectangular and pencil as well as simulated divided lites
- ENERGY STAR qualified

Premium quality window hardware is used to provide you with the ultimate in convenience and ease of use. All windows come standard with casement folding/nesting handles, easy to remove screens, multipoint locking and heavy-duty operating hardware. Optional concealed operating hardware is also available.

Casement and awning windows are often combined with fixed windows to offer a multitude of possible combinations. Contact Fersina to discuss the available combinations.

Fersina Windows

BAY & BOW WINDOWS

BAY AND BOW WINDOWS FEATURE:

- Oak veneer, solid oak, pine veneer solid pine or good one side plywood head and seat to name a few
- Insulated support bases and roofs in many styles
- Thermally welded corners in frame and sash for superior strength and air tightness
- Heavy duty extrusions with 2 mm exterior walls
- Multi-chamber design for rigidity, insulation, and sound absorption
- Easy to remove screen
- Low E Argon glass with warm edge spacer
- Folding/nesting operating handle
- Multipoint casement locking mechanism for convenience
- Top and bottom mounted hinges
- Offset hinge for easy cleaning from inside
- Numerous glazing options available
- Internal grills available in Georgian, rectangular and pencil as well as simulated divided lites
- ENERGY STAR qualified

BAY WINDOWS

Fersina Bay windows are designed with three window sections that project from the house. Bay windows can give the illusion of increasing the size of your room as your gaze is drawn to the projected center section. They can also increase the view of your surroundings. Optional ventilating sections are achieved by using casement, double hung tilt, single hung tilt or tilt and turn windows.

BOW WINDOWS

Similar to a Bay window, Fersina Bow windows create a more rounded effect. They are available in four, five, or six sections. Optional ventilating sections are achieved by using casement, double hung tilt, single hung tilt or tilt and turn windows.

Fersina Windows

TRADITIONAL WINDOW STYLE

Premium quality Single Hung tilt windows are more cost effective than their Double Hung counterpart. Single Hungs let in more light with half screens.

Single hung tilt windows provide a close visual match for older and historical homes.

Top glass is fixed in place. The lower sash slides up and down for ventilation and also tilts into the house to facilitate cleaning.

Premium quality constant force balances allow the window sash to be slid vertically with minimal effort.

SINGLE HUNG TILT & SINGLE SLIDER TILT

SINGLE HUNG TILT AND SINGLE SLIDER TILT WINDOWS FEATURE:

- Thermally welded corners in frame and sash for superior strength and air tightness
- Heavy duty extrusions with 2 mm exterior walls
- Multi-chamber design for rigidity, insulation, and sound absorption
- Easy to remove, flush mounted, screen
- Low E Argon glass with warm edge spacer
- Top and bottom mounted hinges
- Offset hinge for easy cleaning from inside
- Numerous glazing options available
- Internal grills available in Georgian, rectangular and pencil as well as simulated divided lites
- ENERGY STAR qualified

BEAUTY AND ENERGY SAVINGS

Simplicity in design and attractive styling make the Fersina Single Slider Tilt window a favourite of home owners, renovators and builders.

Fersina Single Slider Tilt is the solution for increasing the thermal efficiency of your home and keeping your energy bills as low as possible. This window is a popular solution for replacing older sliding windows.

One sash slides open and tilts in for cleaning; the other glass is fixed in place.

Fersina Windows

DOUBLE HUNG TILT & DOUBLE SLIDER TILT

SUPERIOR CLEANABILITY

A beautiful choice for both older and newer homes. Maintaining (or creating) your home's character, increasing its thermal efficiency and decreasing maintenance are achieved with this window.

The Fersina Double Hung Tilt window provides ventilation at the top, bottom or both sections of the window. Both sashes tilt into the house for easy, one-person cleaning. One screen covers the entire window. Durable constant force balances are used for effortless, trouble-free operation.

Internal grills in a multitude of styles, colours and configurations can make your home the envy of the neighbourhood.

DOUBLE SLIDER TILT

A popular window for both new homes and as a replacement window for older side-sliding windows. Both sashes slide horizontally for ventilation.

The Fersina Double slider Tilt window provides ventilation at both sides of the window. Patented slide blocks allow both sashes to tilt into the house for easy, one-person cleaning. One screen covers the full span of the window.

DOUBLE SLIDER

DOUBLE HUNG

DOUBLE HUNG TILT AND DOUBLE SLIDER TILT WINDOWS FEATURE:

- Thermally welded corners in frame and sash for superior strength and air tightness
- Heavy duty extrusions with 2 mm exterior walls
- Multi-chamber design for rigidity, insulation, and sound absorption
- Easy to remove screen
- Low E Argon glass with warm edge spacer
- Constant force balances for ease of use
- High security sash locks
- Upper and lower sashes tilt for easy cleaning from inside (double hung tilt)
- Numerous glazing options available
- Internal grills available in Georgian, rectangular and pencil as well as simulated divided lites
- Optional night latches available
- ENERGY STAR qualified

TILT AND TURN

These classic, European style windows are produced by Fersina Windows. Superior air tightness and ease of operation are the trademarks of Fersina Tilt and Turn windows.

A single lever controls all window functions. With the handle in the down position multi-point locks engage on all four sides of the frame for maximum security. The tilt position provides ventilation while still maintaining security. The turn position allows the sash to hinge into the room for ease of cleaning and maximum ventilation. Ideal for egress (escape) windows.

TILT AND TURN

TILT AND TURN WINDOWS FEATURE:

- Window tilts for ventilating, also swings to interior for ease of cleaning
- Concealed multi-point locks improve aesthetics and security
- All functions operated by a single lever
- Attractive, energy-efficient and low maintenance windows
- Heavy duty extrusions
- Multi-chamber design for rigidity, insulation, and sound absorption
- Numerous glazing options available
- Standard white and other colours available
- Internal grills available in Georgian, rectangular and pencil as well as simulated divided lites

LOCKED MODE

VINYL DOORS SINGLE AND DOUBLE

Fersina Windows also produces custom vinyl door systems. Over-height doors and widths from 24" to 45" wide can produce a spectacular effect. Shaped doors are also available in round-top and camber-top styles.

Included with every Fersina door is a high security, multi-point lock with lever handle. Close the door to latch, pull the lever handle up 1/4 turn and the door seals mechanically. NO air leakage with this door system!

Fersina vinyl garden doors provide maximum visibility and ventilation. Sliding screens or optional retractable Phantom screens are also available.

Sidelites and transom lites can give your home the desired classic design and appearance.

A variety of configurations to meet your specifications.

Speak to a Fersina representative for advice on adding this premier door system to your existing or new home.

FERSINA VINYL DOORS FEATURE:

- All vinyl construction.
- Multi-point locks are included with vinyl door system, improving the aesthetics and providing maximum security
- Attractive, energy-efficient and low maintenance doors
- Heavy duty extrusions
- Steel-reinforced Multi-chamber design for rigidity, insulation, and sound absorption
- Numerous glazing options available
- Standard white and other colours available
- Internal grills available in Georgian, rectangular and pencil as well as simulated divided lites

When Fersina Windows employees come to work on your property you can rest assured that our workers will respect your property as if it were their own.

Fersina Windows

Fersina Windows

FERSINA WINDOWS DESIGN AND MANUFACTURING

Fersina Windows is celebrating over 25 successful years of serving customers. Since its inception in Peterborough in 1987, Fersina Windows continues to remain at the leading edge of design, innovation and customer service.

Fersina custom-manufactures a complete line of ENERGY STAR qualified windows for new construction and replacement markets.

LIFETIME WARRANTY (NON-PRO RATED)

Extensive research and development has led to the development of the best window in the industry. You can feel secure in the knowledge that our windows are manufactured and installed by the finest technicians and craftsmen. We are so confident that your Fersina Windows will perform to the highest possible standards that we are issuing a lifetime warranty for Fersina-manufactured products. Fersina Windows warrants that the product shall remain free of defects, in material or workmanship under normal use and service.

- All vinyl extrusions will be warrantied against chipping, cracking, peeling, blistering, warping or sagging.
- All window hardware balances, locks, keepers and casement operating hardware will be warranted to operate properly and serve the design function.
- All glass units are warranted against seal failure, which results in dust, film or condensation forming between the panes of glass.
- Glass units are fully guaranteed against spontaneous glass breakage for the lifetime of your ownership.
- Window screens are covered for the full term of the warranty. Screen fabric, under normal use, is covered for ten years. Screen repairs are performed free of charge when returned to Fersina.
- Repair labour is included for ten years from the date of purchase.
- This warranty includes only those products manufactured by Fersina Windows. Non-Fersina products are covered by their manufacturer's warranties.

Condensation on the glass surface is the natural result of excessive moisture in the home and does not indicate a defective product or faulty installation.

HOW TO TRANSFER YOUR WARRANTY

Your Fersina Windows warranty can be transferred to future purchasers of the original property subject to a registered letter being sent to Fersina Windows. Notification must be received by Fersina Windows within 30 days of the new homeowner's taking possession of the property where the Fersina product was installed. This warranty will expire should the new owner fail to send Fersina Windows notification within the time period noted above.

LIFETIME WARRANTY

EXCLUSIONS

- Defects or damage caused by fire, flood or "acts of God."
- Defects or damage caused by accidents, misuse, neglect or actions of others.
- Products which have been altered or repaired by anyone other than an authorized Fersina service technician in a manner which has affected the performance or stability.
 - Caulking.
 - Service required beyond a 75km radius of Fersina Windows, may be subject to mileage fees at the discretion of Fersina Windows.
