Clearview

Grill Options

The options are endless.

The Internal Grill & Simulated Divided Lites are timeless designs on a doorlite using horizontal and vertical bars that separate the doorlite into panes. In addition to having the largest selection of grills, KV Custom Windows & Doors can also create a customized grill pattern to perfectly fit your home.

Internal Grills & Simulated Divided Lites

Our stylish internal grills, available in different grill types, colours and patterns, are a great way to help bring your door designs to life. Inserted into glass panes at the time of door manufacture, they don't get in the way of cleaning the glass.

Simulated divided lites add a unique look to a home while ensuring modern energy efficiency and performance. A simulated divided lite is when a doorlite has grills attached to the inside and outside of the glass.

Express yourself through colour

Choose from 31 standard paint finishes and 10 standard stain finishes for the interior and exterior of your door. We'll match any colour you desire. We use a premium paint formula for fade resistance and colour retention. Our water-based paints are environmentally responsible.

Disclaimer: The colours shown are for representation only.
Please consult a KV dealer for the KV colour chart to obtain accurate colours.

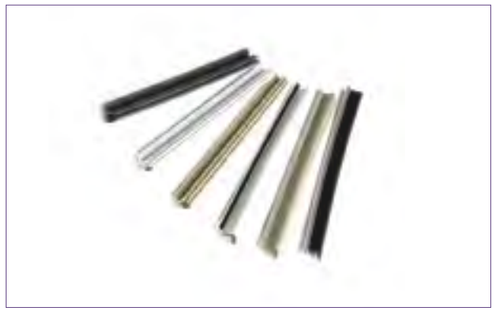

Standard Features

Harmonious benefits.

From frames to hardware, KV custom doors are comprised of many different elements. Each standard component works together in harmony to create the perfect door for the homeowner's needs. For more information about our standard features, contact our local KV dealer near you.

Premium Weather-stripping

A combination of magnetic and compression or an all compression configuration is standard on all KV custom door systems.

- Magnetic weather-stripping will engage your door to create a positive seal
- Compression weather-stripping will expand to create a positive seal
- Will not shrink
- Serves as a barrier between you and the element

Low Profile Sill Options

4 5/8" & 6 5/8" LP fixed sill is optional on all KV custom door systems.

- Low profile sill is perfect for retrofit application where interior crown height is required to be as low as possible
- The aluminum and vinyl sill is thermally broken to eliminate any frost or cold transfer
- Special anti-slip sill design
- Available finishes include Mill, Satin Nickel and Bronze

FJP Pine Frame (Standard Raw or Primed)

4 5/8" X 1 1/4" or 6 5/8" x 1 1/4" FJP frame is standard on all KV custom door systems.

- Eastern White Pine adds extra strength to keep the wood frame from warping or cracking
- All Jambs are available in raw or primed and with options to Vinyl Clad, Oak wrap or Solid Oak
- Optional 1 1/2" frame thickness (limitations apply)
- Made from North American hand selected pine species

Wood Lock Block

A 18" wood lock block is standard on all KV custom door systems.

- Reinforces the lock area of the door slab
- Allows for a full range of grip sets and deadbolts

Seamless Doorlite Frame

Standard on all non-shaped doorlites.

- Cellular Extruded PVC and Foam make for a maintenance-free weatherproof doorlite frame
- Colonial design enhances the beauty of the door system
- Dual seal interior flexible creates positive water seal
- Interior screw cover eliminates any visible screw plugs
- Optional contemporary frame

KV Custom Patented Security Bar

This bar is mounted into the interior jamb and positioned behind the dead bolt and handle using four 4-inch screws.

- If external force is applied to the door, the security bars' reinforcement of the jamb helps to prevent the jamb from splitting

Extruded Vinyl Door Frame

Multi cambered extrusion for strength, durability and energy efficiency four standard frame depths - 4 5/8", 5 5/8", 6 5/8" & 7 5/8".

- Installation strip conceals all screws used for installation
- Co-extruded flexible for water tight seal
- Available in standard white 141 & 136
- Can be painted to match any finish

Ball Bearing Hinges Standard

Brass, Satin Nickel, Black Chrome, Flat Black or Antique Bronze finishes are standard on all KV custom door systems.

- 2.5mm metal with smooth hinge action
- No metal to metal contact
- Optional decorative steeple tips

Exterior Accessories

Decorative Brickmolds

These exterior accessories will add even more beauty, value and efficiency to an already outstanding door.

Anatomy

1. High Profile Sill

4 5/8" or 6 5/8" Fixed aluminum sill is standard on all KV custom door systems.

- The aluminum and vinyl sill is thermally broken to eliminate any frost transfer
- Textured profile to help assist in anti-slip surface

2. Extruded PVC Brickmold

Multi-chambered extruded vinyl brickmold.

- Welded corners for strength and durability
- Snaps into accessory groove for a positive water tight fit
- Wood filled for storm door application

3. Weather Rite Adjustable Sweep

All KV custom door systems come standard with the newly designed multi-fin weather rite sweep.

- Designed to integrate with the sill profile to offer superior fit and performance
- Multi-finned design to create positive seal against the elements
- Exterior co extruded fin to help eliminate any exterior moisture from entering in
- Interior screw cover to help enhance the interior finish
- Fully adjustable and easy to replace

4. Door Slab

24 Gauge hot-dipped galvanized steel.

- Provides long lasting performance and resistance against rust and corrosion
- Standard factory white finish
- Solid Polyurethane foam core to fill air space and provide insulation and stability
- Continuous wood thermal break around perimeter of door to help eliminate hot and cold transfer and prevent frost and condensation

Hardware

Personalize your door.

High quality, smart-looking hardware is the perfect accent for a stunning door. Talk to us about our sleek, well-designed options for gripsets, deadbolts, finishes and more. We have the superior product knowledge and expertise to match your style of door with elegant hardware constructed to function beautifully for years to come.

Gripsets

Whether contemporary or traditional, KV Custom Windows & Doors provide gripsets for any entrance door.

Ashfield | Avalon | Tavaris | Augusta | Shelburne | Hawthorne

▶ Please see your local KV dealer for available finishes for each model.

Interior Kits & Passage Kits

Complement the interior of your home with one of the various options of interior kit & passage kits.

Troy | Hancock | Laurel | Montreal | Halifax | Commonwealth

Deadbolts

Ensure the security of your home with KV's deadbolt locks. With more security than a regular spring bolt lock, our deadbolt locks come in various styles and colours.

Square Single Cylinder | Round Single Cylinder | Smartcode Deadbolt | Smartcode Lever | Hawthorne Gripset with Laurel | Tavaris Gripset with Vedani

Finishes

Customize your handle by choosing the following finishes to add the final touch to your entryway.

Venetian Bronze | Satin Nickel | Antique Nickel | Iron Black | Satin Chrome | Polished Chrome

Multi-Point Lock System

For maximum security, KV Custom Windows & Doors offers a Multi-point lock system that activates automatically by simply closing the door. The upper and lower latches instantly engage and become 2 additional deadbolts. The door is locked when you simply turn the knob or key, engaging the central deadbolt.

Gripsets

Levers

Berkeley | Salem | Torino | Capri | Venice

Satin Nickel | Iron Black | Pewter | Dark Bronze | Brass

▶ Please see your local KV dealer for available finishes for each model.

Astragal Mortices Lock System

The Astragal Mortise lock is a simple and easy lock system that engages a high security steel flush bolt system with the flick of one simple lever. The Astragal Mortise lock comes standard on all KV double doors which are fitted with the optional Multi-point locking system.

Technology

More than just a great view.

KV Custom Windows & Doors proudly offer beautifully designed products with state-of-the-art technology, providing your home with the pinnacle of energy, security and longevity.

Thermal Insulation

Protection from outside temperatures.

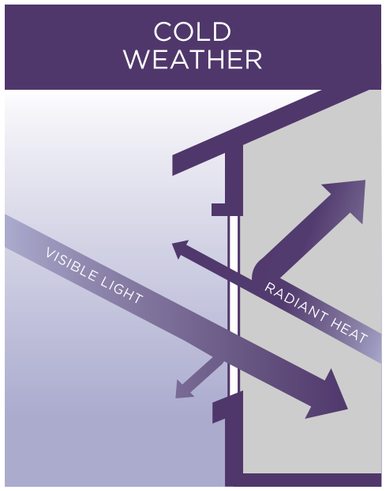

Low E Coating is an applied metallic coating that provides added protection against harmful UV rays and keeps your home insulated against energy loss during all seasons. The layers of transparent silver allow the glass to reject the sun's heat in the summer and reflect furnace heat back into your home in the winter.

Argon Gas is an inert, low moving gas that gives the best thermal performance possible. Replacing the air between the panes of a glass unit with Argon Gas, heat loss is prevented.

Low E and Argon Gas are standard on all KV Windows, Entrance Doors, and Patio Doors, creating the most balanced energy performance for both winter heatings and summer cooling.

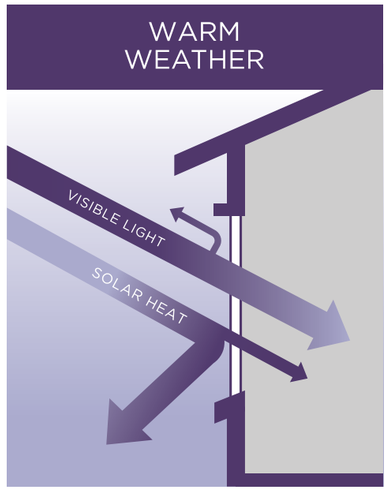

Cold Weather

Radiant heat is kept inside your home during winter.

Warm Weather

UV is reflected back out in the summer.

KV Lifetime Warranty

So you can relax.

KV Custom Windows & Doors takes pride in offering our customers an industry leading "Limited Lifetime Fully Transferrable" warranty. We give every Window, Entrance Door, and Patio Door our undivided attention and warrant that our products will be free of any material or manufacturing defects. We offer our Lifetime Warranty on solid PVC white and cream colours against blistering, peeling, flaking, cracking or fading. Windows and doors with exterior paint have a 15-year warranty.

Lifetime Warranty

The Energy Star Program

Energy efficiency at its best.

The Energy Star Program helps homeowners make educated choices when purchasing new windows and doors. KV Custom Windows & Doors complies with all of Canada's four regions and offers maximum insulation during the coldest winters, hottest summers, and every day in between. Our products meet the Energy Star Program guidelines for helping businesses and individuals protect the environment through the superior energy efficiency.

ENERGY STAR
HIGH EFFICIENCY
HAUTE EFFICACITÉ

Protecting the Environment

Making a positive impact on the planet.

At KV Custom Windows & Doors, we are proactive in controlling waste by recycling all unused raw materials in our manufacturing processes, including PVC, steel, fibreglass, glass, paper and cardboard. We also partner with Royal Plastics & Guardian Glass to design new products that help reduce in-home energy costs.

Condensation

Minimize moisture.

What is Condensation?

Condensation is the formation of moisture that appears on the inside surface of a window or glass doorlite. It often occurs in winter when the warm air inside the house is higher than colder temperature outside. The higher the moisture levels in the air inside the house, or the colder the temperatures outside, the heavier the condensation.

Condensation occurs first around the edge of the glass unit, where surface temperature are coldest. If a standard “aluminum” spacer exists, condensation will form on the glass edge when temperatures fall, even if there is minimal humidity indoors.

White “S” Class Super Spacer®

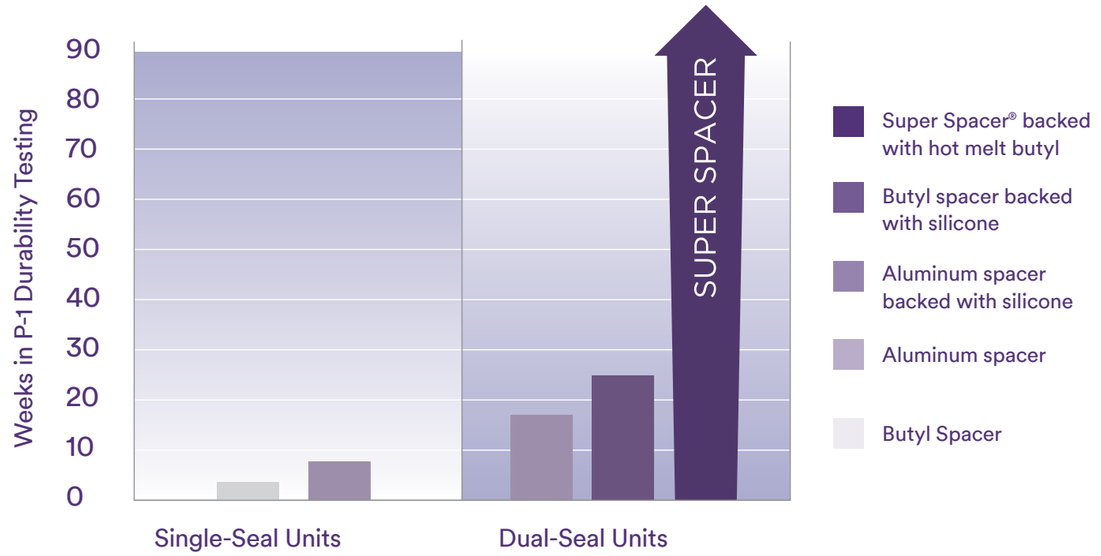

All KV Custom Windows & Doors insulated glass units come standard with the industry leading warm edge spacer system, the White “S” Class Super Spacer®. The patented Super Spacer® is the only non-metal spacer manufactured out of 100 percent polymer foam offering performance qualities greater than any other spacer system. Super Spacer® is placed around the edges of the glass unit, reducing the occurrence of condensation.

KV Custom Windows & Doors values being innovative and are always searching for solutions to make life easier for customers. KV Custom Windows & Doors provide customers with industry leading products that reduce the amount of maintenance required in their home.

Strength Classification

The Super Spacer® has been tested using the toughest durability test, the P-1 chamber. Tests are done on a weekly basis, consisting of bombarding KV Custom Windows & Doors products with humidity and UV exposure.

Let’s talk

We welcome the opportunity to provide you with more information about the benefits of the White “S” Class Super Spacer®, and how it minimizes the occurrence of condensation in your glass units today, tomorrow and for the life of your KV Windows & Doors. Please contact your local KV dealer to better understand your insulated glass unit options.
